

# Fact Sheet: FIRE LOSS FUNDS

## *The journey . . .*

After the July 15<sup>th</sup>, 2016 Township Garage fire, the Township Trustees hired Adjusters International to help negotiate the best possible settlement with our insurance company. After 3 years, we are happy to report that ***we have received our final payment.*** We are also happy to report that despite the hardships we have endured by losing almost all our major equipment and not having a building for over 2 years, ***the township did not have to incur any major debt or go to the voters for additional money to make it through this difficult time.***

## *The Numbers . . .*

The Township received **\$524,603.15** in insurance money to rebuild the township garage. With these funds we were able to construct an **8,118 sq. ft.**, 6-bay garage with radiant floor heat and office space.

Additionally, the township received over **\$526,000** for vehicles and the building's contents (more than 480 cataloged and assessed items).

## **Major Equipment Replaced:**

- Front End Loader
- Backhoe
- One-Ton Pickup
- Snowplow(s)
- Mowers

## *Thank you . . .*

*...to the previous Trustees for their work starting this process, to Adjusters International for getting us the best settlement, and to the residents for their patience as we rebuilt.*
